

## Fishing Tap

LGZ series Fishing Tap are special fishing tools which can make threads on the inside surface of tubular shaped objects, such as [drilling pipe](#), tubings, and others. Suitable for onshore and offshore operations.

## Details

The LGZ series [fishing tap](#) were developed to provide the market with more reliable technology and more hoisting performance. The fishing tap is a kind of special tools which could make thread on the inside surface of tubular shaped objects, such as drilling pipes, tubings and others. It has been designed to retrieve tubular tools from the well bore, such as tubing, drill -pipe, wash-over pipe, packer, water flow allocator, down-hole production allocator, especially suitable for fishing objects accompanied with couplings. Included but not limited by the advantages mentioned, LGZ series fishing tap might be your best choice.
